

The Matterhorn, a jagged mountain is as sharp as a pin. Millions of years ago land masses slid into one another so the ground up rose.

History
 On July 11th 1865 first group of people to climb it.
 Out of 7 people all

For one night the mountain is the

all the way up the mountain

mountain - the sides of the mountain were lit up by red lights along the mountain's ridge.

at the lakes.
the mountain
n there is
a ring where
there are
a bunch of
lakes that

did you now
